

International Student Innovation Hackathon

The gen[in] & CONNECTS International Student Innovation Hackathon is an opportunity for students in Cairns to develop their entrepreneurial skills, solve problems through innovation and compete for amazing prizes!

HOW IT WORKS

1. Successful applicants will undertake online modules to help develop their innovation skills and define problems they'd like to solve.

Social/Community, Environment, Technology, Student Experience, Unicorn (miscellaneous)

2. Students will be placed into diverse teams to "hack" the problems and pitch their solutions to a judging panel at a face-to-face hackathon on Wednesday, 17 April 2019. Great prizes to be won!

3. Eligible participants* will be invited to enter Round 2 of the [gen\[in\] Student Innovation Challenge](#) to take their ideas to the next level and compete state-wide for a share in \$15,000!

*Eligibility requirements for the gen[in] Student Innovation Challenge can be found at
